The Lipno Treetop Trail, a unique national trail and the first of its kind in the Czech Republic, welcomed its first visitors on 10 July 2012. The trail is sensitively integrated into the landscape around Lake Lipno and is a unique addition to Lipno. It completes the offer of sports, educational and entertainment activities.

The trail includes educational didactic elements that will enrich and broaden the knowledge of nature, its protection and the function of the forest. Three adventure stations with rope elements are designed not only for young visitors, but also for those who are still young and have not lost their taste for adventure. They are located at a height of 24 metres.

The Renaissance one-storey corner building covered with four gable roofs is located on Svornost' Square. The nave is vaulted with a cross vault.

The interior of the building is accessed by a broken Gothic portal, above which is a sign with the emblem of the five-leaved Rose of Rosenberg. On the first floor there is a hall with a modern beamed ceiling on brackets. In the right part of the vestibule there is a ceramic map of Český Krumlov on the wall.
